EXPERIENCE

Back-end & Front-end Developer — FPT Software
Jan 2025 – Jun 2026

Citizen Management Platform (Japan)
Nov 2025 – Jun 2026

C# (.NET Core) · Vue.js · SQL Server · Jenkins CI/CD

- Built and maintained C# (.NET) services for a government citizen management platform deployed in Japan, supporting administrative and data workflows.
- Developed a shared Vue.js component library adopted across the product, cutting new-page development time and improving UI consistency.

Smart Inventory & Order Tracking System (APAC retail client)
May 2025 – Oct 2025

.NET Core · SQL Server · Redis · Docker

- Built APIs for order placement and real-time inventory sync; resolved low-stock race conditions with transactions and locking on SQL Server (no overselling in flash-sale trials).
- Added Redis caching, cutting stock-lookup response time from ~800ms to under 150ms; wrote xUnit/Moq tests covering 75%+ of key business logic.

Internal Resource & Sprint Tracking Tool
Jan 2025 – Apr 2025

Vue.js · Node.js (Express) · MongoDB · Docker

- Built Express REST APIs and a Vue.js dashboard for resource allocation, workload capacity and sprint progress; synced Jira tasks and SonarQube coverage via webhooks.
- Replaced manual Excel reporting for PMs, cutting weekly report time by ~60%; used by 100+ people in the unit.

Freelance Full-Stack Developer — Solo projects
Jan 2026 – Sep 2026

Happy Furniture — E-commerce website (happyfurniturevn.com)
Jan – Mar 2026

React storefront · Next.js admin dashboard · .NET REST API

- Built and shipped a live e-commerce site for a furniture retailer from requirements to deployment: search/filtering, image upload, responsive layout, 30+ products live.

Restaurant table-side ordering system (internal use)
Mar – Jul 2026

React (tablet, QR ordering) · Node.js (Express) · MySQL · WebSocket

- Built QR-based table ordering with real-time order routing to a kitchen display, order status tracking, an admin panel for menu/pricing and daily sales reports.

I8 Studio — Director/production showcase website (i8.com.vn)
Jul – Sep 2026

Next.js · Prisma · shadcn/ui · Tailwind CSS v4

- Built and launched a live portfolio site for a TVC production studio with animated landing, video archive, commercial listing and contact page.

PROJECTS

OratorAI — AI Presentation Analysis Platform
Jan – Apr 2026

Team Leader & Back-end Developer · Team of 5 · Academic project

- Designed a microservices system for presentation analysis (Faster Whisper, Pyannote.audio, Sentence Transformers + spaCy); used Amazon SQS to decouple AI workers from the API for horizontal scaling.
- Integrated Google Gemini to auto-generate structured performance reports.

Also (Team Leader, team of 5): AImpact — AI personal finance app (Grok, PayOS) · Quizlingo — adaptive English quiz app (OpenAI) · EVCare — EV service management system (Gemini, PayOS)

EDUCATION

FPT University — Bachelor of Software Engineering
Sep 2021 – May 2026

English: Working proficiency — comfortable reading technical documentation.
